What happens if you get sick or injured while you are in the U.S.? You might not be thinking about this question yet – but it is important that you do!

**Health Insurance:**
If you are a *J-1 visa holder*, you are **required by U.S. law** to have health insurance. Please click on this link and learn more about the health insurance requirements and ways to purchase insurance. You will be asked to show proof of this insurance once you arrive on campus, and it is important to carry this proof of insurance with you while in the U.S., so that you have it in any emergency situations.

**Immunization Records:**
In Campus Connect you will be asked to submit records of your immunizations. You can submit this online or you can bring a paper copy to your orientation to submit in-person. You can read more on our website about DePaul’s immunization requirements and how to submit your proof of immunization. If you submitted your immunization records with your application, then we have sent them to Student Records. I strongly recommend that you still bring a copy of your records with you as back-up in case you need to re-submit for any reason.

**Flight Information:**

Please send your flight information: airline, flight number, date of arrival, time of arrival. Airport pickup will be available on August 18 for College of Law students. If you are arriving on August 18 and would like to request airport pick up, you must request this service by emailing internationalprograms@depaul.edu with your flight information.

Please note: If you arrive before your assigned on-campus move-in date, then you need to make arrangements to stay in a hostel or hotel until your on-campus housing is available.
